How we Create Custom Tile, Stone or Sinks For You

The Sky is the limit regarding design.

So be Creative.

Designs can be inspired by wall coverings, books, magazines or anything.

Call or fax exact measurements and we will layout the design concept with pricing. The base tile or sink is your choice from any of the manufactures. We will take your product and create the designs.

The sinks and tiles are kiln fired for durability and can then be cleaned by most household cleaners. The stones products are sealed for durability.

Once given the go ahead we request a 50% deposit with balance due at delivery.

We will send an installation guide for your installer. Each piece of the design will be numbered and associate with the guide.

DEDICATION

Creations by Denise Inc. has been creating beautiful and functional one of a kind works of art for the past 19 years. We pride ourselves in each and every job. No job is to small or to large.

COMMERCIAL DECALS

We will create original designs then duplicate in mass in the form of custom Decals. This process shows the brush stroke of the original. The decals are applied and fired on to any type of field tile.

This decal is used by Wine Cellar Innovation for their 108 bottle wine tasting tables.

COMMERCIAL GLAZING

We will create small quantities of custom glaze color on tiles from 1" to 12". These tile are glazed with the brush style and fired for durability. You will see movement in the glaze which adds to it's beauty. Our tile has been used at Paramount's Kings Island, Bob Evans, Skyline Chili to name a few. As well as private residences.

Great for restoration as well.

COMMERCIAL SIGNAGE

We have created signage on tile for many clients including, The University of Cincinnati Bearcats, for the locker room. Cellular One, the VFW and many others. The size and shape is custom to your needs. The tiles are often frost proof and hold up extremely well out of doors.
